# SOCIAL KHICHARHEE VS SOCIAL ENGINEERING WITH MODERN IDEAS!

∞1∞0X109210-R1-[ਕੌਣ ਸੀ ਦਿਸ਼ਾ ਜਾਓਗੇ = What Direction?]

This Third CATEGORY WANTS TO STAY STANDSITLL IN HISTORY

∞1∞0X109210-R1-[ਕੌਣ ਸੀ ਦਿਸ਼ਾ ਜਾਓਗੇ = What Direction?]

- ❑ Let's say you want another business language which will be acceptable with minimum or no resistance from other states, then you will have to create a language for example Hindustani = Take key business words from Punjabi, Telugu, Tamil, Sanskrit, हिंदोस्तानी संस्करण of अंग्रेजी भाषा संस्करण and so on and make hindi version out of these . You will create a business language ,let's call it "हिंदोस्तानी भाषा" that will be easily adopted by all masses perhaps worldwide too!
- ❑ If this idea crosses your little mind that you feel like God today! Then ask this question yourself, am I an excellent & great human being? How can someone be an infinite resourceful of brain power, magnificent heart and memories retention like God, without being an excellent human being (it's a prerequisite)!
- ❑ One will come across this phenomenon /principle very often i.e., when there is a battery fully charged, you measure its voltage or potential. Let us say it is 100Vdc/Vac, however when you apply Resistive load that this battery (or Human) can handle, without voltage regulator. The voltage or potential or enthusiasm will reduce to half (50% levels). what it means is this in electrical or electronics engineering, the open circuit voltage (with no load/responsibilities) it will be up to 200Vdc / 200ac. Once load (real life stress or responsibilities) is connected its voltage will be 50% , less than 100Vac/Vdc as compared to fully charged open circuit voltage or potential.
- ❑ The point is be always mindful, unless it is a ridiculous joke of the century being uttered! Racism is an ill upon society like CASTEISM, respect diversity.
- ❑ So imagine, if you do not have any responsibilities or stresses of life or home life, for example, house mortgage and all bills, it will be like you would feel like that battery, which means you have double energy than your partner, or people around you! In other words, it will be much easier to speed up an empty car with just one driver as a "passenger" to 70 KM/hr, as compared to a car fully occupied with five adult, including driver, plus four passengers! It's an example of little LOAD vs FULL Load all family members on both sides of relationships for married couples!
- ❑ If a system demands more work from you and pays less as compared to your competitors. what would you do?
- ❑ If there are problems and it is very complex in nature then create competitors companies to solve the problems in unique way within the scope of the system, that you live in.
- ❑ If there are problems and it is very complex in nature then create competitors companies to solve the problems in unique way within the scope of the system, that you live in.
- ❑ Every body have same issues, some have big ones and others may have small ones! Have organizations to finance the big or small solutions.
- ❑ Your immune system is a God's miracle at work all the time. You must know what makes it stronger and hence You will become accordingly stronger! You must know role of all Vitamins from A to Z, Fruits, vegetables, Proteines, Mineral and Hygiene How they affect your body's immunity !
- ❑ Your immune system is a God's miracle at work all the time. You must know what makes it stronger and hence You will become accordingly stronger! You must know role of all Vitamins from A to Z, Fruits, vegetables, Proteines, Mineral and Hygiene How they affect your body's immunity !
- ❑ There are God's priceless gifts and Rewards, you must learn about them. There are curses too. You ought to be aware of the! When rich do not abide by these principles, you will see it's (actions) implications in front of your eyes everyday! You must Move forward, politically and spiritually!
