

It seems Neutron /Super Nova and Black holes interact with each other via gravitational forces and hence make all this universe around us all exist..!

Why there are Fruit trees, Pine trees, Oak Trees, Cedar Trees, Mahogany wood trees! The world of Trees will not be complete without variety.

Similarly it applies to all beings, humans, birds, animals and insects etc., you name it..

OAK TREE HAS ITS PROPERTIES, SO DOES APPLE TREE AND SO ON, CAN WE SAY THAT THERE MUST BE ONLY FRUIT TREES & NONE ELSE HERE?

How God knows all languages? because, all languages produce same message, e.g., if you say red rose in any language it will produce same image, the image is produced by neurons, self consciousness is interacting with these messengers called neurons, which do not have any language, but chemistry or form of chemicals only. So it is important that message is clearly said to the soul, which will produce neuron for God to understand, what's being asked or said to that mysterious Force, that interacts through imagination.

Moons are attached to planets, planets are attached to stars, stars are attached to black holes and Black holes are interacting with neutrons!

So all we can see or observe in His universe, is made for a reason, nothing is extra or un-useful!

Let's figure out new word for a behavior; extremely one track thinking and shows extreme inner ugliness; "Ugly-oogly" an "ugly-oogly" say something & maintains secretly a status quo!

On the outside we all look similar, except color, however what makes us unique and best is on the inside!

GOD IS REAL AND DEVIL IS ALWAYS FAKE! DEVIL LOVES FAKE DEMOCRACY (IES), HOME & ELSEWHERE! WHO?

Moons are attached to planets, planets are attached to stars, stars are attached to black holes and Black holes are interacting with neutrons!

Who owns galaxies, black holes, neutron stars, supernova etc. ?

Do not let any DEVIL (s), wreck your precious dreams in His Glory! So VOTE to make differences in your Life and achieve your Dreams in His Glory!

There will be new languages in the future, history shows that for example, Sanskrit, Spanish, latin, english and more to come in the future... You can agree or disagree!
