My question is this for heaven sake, if India changes it's rules and all policies such that, All scientists, and High skilled professionals, start going to India, instead of western Five Super Powers, what would happen to world economy?

"Before I write my name on the board, I'll need to know how you're planning to use that data."

What do you mean by scientists and professionals, Oey Little stud\_ent?

"Before I write my name on the board, I'll need to know how you're planning to use that data."

**SCIENTIST:** The one who is capable of becoming an Engineer & Doctor, both talents in one body.  
**PROFESSIONALS:** All people/individuals who are multi-talented or multi-skilled & Multilinguals. Those High skilled immigrants are equal to more than two ordinary people. e.g., "engineer+economist, and Engineer+industialist" and so on.. etc., They can produce ROI, more than Million folds of original investments from elites!

"Before I write my name on the board, I'll need to know how you're planning to use that data."

## On Being Feature Presentations, Broadcast at [www.WBEZ.ORG](http://www.WBEZ.ORG)

On Being opens up the animating questions at the center of human life: What does it mean to be human, and how do we want to live? We explore these questions in their richness and complexity in 21st-century lives and endeavors. We pursue wisdom and moral imagination as much as knowledge; we esteem nuance and poetry as much as fact.

Airs Wednesdays at 9 p.m. and Sundays at 7 a.m. on WBEZ

Conversations centering on the questions: What does it mean to be human? How do we want to live?

# Thank You

## Competitive vs Supportive Spouse:

It is stated that Those who believe in competitive ideology, I admire them. I like this ideology too, for; 1) It helps bring the best or the worst in each of us!, 2) The external forces of Governments', in some cases are not RULES at all, in fact those matter of chance are just CRAP SHOOTs of some sort! And Corporate world, when working in synchronization with Ruling class of societies: If these forces, disrupt our social and family lives adversely, it must be judged from a perspective that certain firms or governments are bent on WINNING no matter what! That means by "HOOK OR CROOK" philosophy. This "HOOK OR CROOK" philosophy is fine with me in the corporate culture or environment, since it happens in the grown ups work places, I called them "miniature kingdoms! However, if this culture of winning at any cost is applied at HOME, where, there is mix of young & innocent children, parents and grandparents. At Home, it is important that there one must see or I should say analyze from whole picture point of view. If one partner, believes in winning the wrong way at "HOME", where, children and adults live, and corporate world just lays off the employee mercilessly without giving any damn how they are helping the thought of winning by hook or crook of a bad, a very bad corporate culture and societal world at large!

These Corporate houses and Governing Class must be HELD responsible for loss of wages through the lives of the innocent and Brave Family Persons, that could be husband or wife of any household! So that everybody can understand the difference between Humans and Machines or mechanical lives! Above all, whose side are you, yes you, a) HOOK or CROOKs or, b) Innocent and Brave?
