100000, This will end little skirmishes ..., 1st Preference must be Given to Words, Not Bullets, However, if they like to talk with GUNS then so be it.. PEACE MUST BE THE MOTO NOT VIOLENCE Always or until it makes sense to them, Be Proactively Reciprocal for Good or Bad ;Good for Good and Vice versa. Let them choose, own their own, whatever, that may be...Speak their language First , Then if not understood correctly, teach YOURS! Good for Best and Bad for Worse responses are very well taken in real life!
