

The government has shutdown your ability to earn a living. But every government employee and every politician is still getting paid. And you are the one paying for that.

The Solutions: People worldwide must act now to cut SALARIES OF THEIR POLITICIANS BY ½ (50%), this change alone will definitely make them behave like humans, NOT Gods/Lords. The money saved this way must be spent on their respective communities worldwide that they serve and the people affected most due to COVID-19. Also the money being spent on COVID-19, vaccine development; CHINA (or else responsible for pandemics), must be forced to pay all cost of vaccine developments, so that any other country if does this in the future will be held responsible!

If you, Yes You, do nothing, then it's a Noble Prize in itself for the culprit and disrespect for the victims or worldwide citizenry or electorate!

What's WHO at UNO doing about it? May be none in his/her entire life time can understand activities of WHO?

There must be noble prize (or name it something else) for WHO's efforts too! That means WHO earned it.

It's new term for slavery, instead of physical slavery of mind, it's control on your wages. The wages are so low that it is extremely difficult to survive and even live decent life in the system of FLOPPED stubborn principles and dumb ideas.

Meet China's New "Game-Changing" Jet, the Comac C919

On a clear May morning in Shanghai, the C919 airliner took its maiden voyage to rapturous applause from onlookers below. The single-aisle jet, designed and manufactured by Commercial Aircraft Corp. of China, or Comac, signals a turning point not only for China but also the global aerospace manufacturing sector. For more than 30 years, it's been China's dream to control its own fate where aviation hardware is concerned, and with the successful demonstration of the C919—already being called a "game changer"—that dream comes one step closer to becoming a reality.

तीसरा दोस्त - हा हा हा हा इन सालों को पहले जैसा काला बना दो।

The Great Principles for Humans!

The Great Mahatama Budha Msgs to The World

Do not believe in anything simply because you have heard it.

Do not believe in anything simply because it is spoken and rumored by many.

Do not believe in anything simply because it is found written in your religious books. □

Do not believe in anything merely on the authority of your teachers and elders.

Do not believe in traditions because they have been handed down for many generations.

But after observation and analysis, when you find that anything agrees with reason and is conducive to the good and benefit of one and all, then accept it and live up to it.

HR Story

Must read:

Once a HR was travelling in a train in A/c class. He was alone in the coach. After some time, a lady came and sit in front of him. After that she went to him and told to give her money, mobile everything , Otherwise she will shout and tell everybody that he is harassing and misbehaving with me. The HR took out a paper and a pen from his bag and wrote that he can not hear or speak. You write on this paper whatever you want to say.. That lady wrote everything what she said earlier and gave it to that man. Then he told her now you can shout.. and do whatever you want. I have got documentary proof. That's the importance of documentation and work experience of HR professionals
