

### Galaxies and Beyond

Do you know Black holes are powering all their galaxies? It makes, their stars (SUNS) and star's planets revolve around them, 24 hrs, and 7 days for billions of years. Eventually, suns and their planets and moons fall into Stars and then Stars fall into black holes after stars' life ends! This is how universe recycles everything around Black Holes. **Those who do not believe this. They believe in fake philosophies! I Got it on Feb 28, 2019!**

Devils will always try to hide, absolute truths, from all normal humans...

**God always acknowledges absolute TRUTH.**

Devil believes and acknowledges Fake philosophies!

GALAXIES AND BEYOND

Godly Democracy is Good & Fair for all Humanity  
 Godly Democracy acts like Enabler or multiplier of Goodness  
 Devil's Democracy is not Fair and Balanced for Humanity  
 When Devil Controls, Power, and acts like Almighty  
 The Society where Devil prevails will be doomed Forever  
 The Earth, The Stars, & Moons, have part of Black Holes at Core  
 Who Created, Black Holes, Galaxies, Stars, Planets, and Moons  
 The Gravity Controls, Stars, Planets and Moons  
 God is formless, colorless, free from cycle of Birth and Death  
 God Listens to Prayers, and bestows favors according to your deeds  
 Souls are Communication link to God / Almighty  
 Black Holes are thousands of light years away from Stars  
 Stars are millions of Kilometers away from Earths  
 Moons are thousands of Kilometers away from Earths  
 Black holes have purpose, and so does Stars, Earths & Moons  
 Devil holds, God Bestows, Devil exists and demises or dies  
 God is omnipresent and lives forever and devil does not  
 God is Bigger and Better than Devil  
 When devil Appears bigger and Better than Almighty, Then We got  
 problem of Gigantic Proportions on our hands  
**God does need us as much as we Need God  
 as long as Earths Exists!**

The Power of Negativity at Humans Level?

$$\text{Almighty GOD} = \infty^N, \text{ Human} = \infty^{-1}$$

$$-1 \times \infty = -(\infty - 1) = -\infty + 1 = -\infty = \text{DEVIL}$$

$$+1 \times \infty = +\infty$$

$$\pm \{(\infty - 1) \times (\infty + 1)\} = \pm \infty^2 - 1$$

Notes: N= +2, for Humans; For Almighty N → ∞

Let' say into the future 2000 yrs or Later, a SUPER or DUPER Powerful Humans society of Color yellow (or u name it) , can figure out something and that means for those super or Duper Humans, the value for N becomes equal to 3, instead of 2. So you see it can take more than Million years for humans to reach N= infinity for humans. Can u imagine for any other human beings other than yellow color, how difficult it can be to prove what has been cited above?
